I have been hearing upon Mr. the Governor's (Sapoli-Srecalleni) is not to act or as helpful to the people as he might be. His habit that application for loans are not disposed of expeditiously. He is not in sufficient touch with those connected with the country.

The Director should be asked to send in a report on the work done by the Sapoli, what he thinks of him.

The Director should also look into things himself & not depend entirely on the reports of his subordinates.

The Dir of I&C reports that Mr. H.S. Govinda Rao "has a creditable record of good work & shows since he was appointed Supdt." and that he himself has been exercising watchful supervision over the Supdt's work.

I think that Mr. Govinda Rao has been attending satisfactorily to the various items on the programme of the Dept, and carrying out the policy outlined by the Dir.

DEVELOPMENT BRANCH

Mr. C. RANGANATHA RAO SAHIB, B.A., B.L.,
Director.

OFFICE OF THE DIRECTOR,

Refer WR 10-2-30

Bangalore, dated the 10th Febry *19* 30.

Dear Mr. Rama Rao,

I have received your D. O. letter No. D. 5493/Seri. 59-29 -2 dated the 27th Novr. 1929. I have made careful inquiries of the work of Mr. H. S. Govinda Rao, the Superintendent of - Sericulture. I am in close touch with his work and the needs of the Sericultural Industry at the present time. I feel it - my duty to state that the information that has apparently reach -ed Government that Mr. Govinda Rao is not in sufficient touch with Sericulturists is not true as will be apparent from what I shall state below. The fact of the matter is that the work - before the Sericultural Department is so immense and so full of potentialities for the future industrial prosperity of the -- State, that the work already done since Mr. Govinda Rao became Superintendent of Sericulture is dwarfed into insignificance - and appears infinitesimal.

One of the most important activities of the Sericultural Department is, the prevention of disease among the Silk Worm. The most effective steps for this purpose are (1) the distri- bution of disease free seed among rearers, and 2) propaganda as to the best methods of rearing. I give below the progress in the distribution of seed from 1926-27 upto 1928-29 and the six months ending 31st Decr. 1929. Considering the staff and resources placed at the disposal of the Department, I consider that the progress is very good.

	1926 - 27	...	4,83,875
	1927 - 28	...	6,88,833
	1928 - 29	...	11,19,586
Six months	1929 - 30	...	7,80,896.

The staff for propaganda has been increased and the result of

of its work is apparent in the increase in demand for disease free layings. A very significant result of the activities of the Department in recent years in the establishment and work of private grainages started with the aid of the Department. Before the present Superintendent took charge, there was not a single aided grainage in the State. There are 10 Aided Grainages at present, and it is expected that before the end of the year, they will distribute about 4½ Lakhs of layings. I expect that 5 Aided Grainages will be started this year. The Superintendent of Sericulture is working out a scheme in consultation with some of the leading Sericulturists of Channapatna for the establishment of Aided Grainages among Seed Rearers. The result of this measure will be far-reaching importance to the Sericultural Industry.

I may instance one other result of the activities of the Department. The Sericultural Industry is in a critical position now owing to the competition of Chinese silk and better reeling methods should be introduced immediately if the industry should at all survive. The present Superintendent, is not, of course, responsible for the design of the new Reeling apparatus, the Mysore Domestic basin, designed by the Departmen It is due to the genius of his predecessor. But I may say a great deal of the credit of the popularity of the domestic basin is due to the present Superintendent. Before Mr. Govind Rao took charge there was one domestic basin installation and the man was complaining that he could not sell his silk in competition with the Charka Reeled silk. There are at present 15 installations and over a dozen applicants for new basins. The demand cannot be met by the Chamarajendra Technical Institute and I am arranging to have the basins made at the Kolar Workshop.

I may add one more instance i.e., the work of the Filature Before Mr. Govinda Rao took charge, the Filature could not sell

sell its silk and the Assistant Superintendent was sent on deputation to find out markets. At the present moment, I cannot meet the demand and the Filature requires immediate extension.

In regard to the loan applications about which you specifically write to me, I have to state that five out of six loan applications received from July last have been disposed of. There is some delay in the Registration Offices in furnishing encumbrance certificates and I am taking necessary action in the matter A copy of my letter to the Inspector-General of Registration is enclosed for your information.

I think, I have said enough to prove that Mr. Govinda Rao has a creditable record of good work to show since he was appointed as Superintendent. I am fortified in this opinion for I have seen recently the work done in the Sericultural Department in Bengal, where the Government is spending more than three times the amount we are doing in Mysore. The result is very inconspicuous as the leading manufacturers in Bengal have to obtain raw silk from Kashmir and Mysore and the old reeling establishments are being closed down one by one.

I am deeply grieved to read the last para of your letter requiring me to look into things myself and not to place too much reliance on my subordinate officer. I have always felt that my responsibility to Government required my watchful supervision over all the activities of any importance in the different branches of the Department committed to my charge, and I can truly say, I have never flinched from the work that is necessary for this purpose. How far I have succeeded in furthering the work of the Department to useful purpose is a matter for the consideration of Government.

I enclose copy of the proceedings of a meeting held in September last year at which the programme of work for the Sericultural Department for this year was laid out. The

D4-38/28-29

7th Febry. 30

Dear Sir,

Subject

Delay on the part of some Sub-Registrars in furnishing encumbrance certificates in respect of property offered as security for sericultural loans.

May I invite your kind reference to your official letter No. C. R. 85/29-30 dated the 27th Novr. 1929 on the above subject, stating that a reply to my letter of even No. would be sent on receipt of a report from the District Registrar, Bangalore ? The promised reply has not yet been received by me. I have already forwarded to you in my letter of the same No dated the 14th August 1929, copy of a letter from the Sub-Registrar of Kunigal, that the certificate would be sent only after the Sericultural Department has arranged to have the Indexes searched by its own staff. I have already pointed out that this is opposed to the orders of Government. The Superintendent of Sericulture reports that much delay in forwarding encumbrance certificates still continues with the result that applications for Sericultural loans cannot be disposed of in time to enable the parties to derive benefit from the loans by employing them on their lands at the right time of the year. I enclose a copy of his letter dated the 30th Jany. 1930.

I will therefore be highly obliged if you can kindly issue immediate instructions to all the Sub-Registrars to furnish encumbrance certificates in connection with Sericultural Loans with as little delay as possible.

I will be glad to have a line in reply as to the action taken by you in this matter.

Copy

Yours sincerely,

G. P. Rajagopalachar, Esq., B.A., B.L

Copy of the letter No.4243/Loans dated 29th/30th January 1930 from the Superintendent of Sericulture, Mysore, to the Director of Industries and Commerce, in Mysore, Bangalore.

With reference to your Memo. No. D4-38/28-29 dated 8-8-29 and 12-8-29, forwarding to me copies of your ~~lessters~~ letters of even No. and dates addressed to the Inspector General of Registration in Mysore, Bangalore, in regard to the issue of encumbrances certificate in respect of property offered as security for Sericultrual Loans, I have the honor to request you to kindly send me a copy of the letter if you have received one from the above said officer, as the same is required for reference in this office. As some of the Sub-Registrars in Mysore District also refuse to comply with the request of my staff for furnishing encumbrances certificates, I request you to kindly remind the Inspector General of Registration if you have not as yet received any reply from him in the matter.

As the parties who apply for Sericultural Loans will be put to much inconvenience for want of funds at the right season of the year, due to the delay in the completion of the loan records, of which the encumbrances certificate is an important one. I request you to kindly take necessary action in the matter at an early date.

'C O P Y'

for Director.
